

TEA 2.0, as a true digital guide, also offers other essential information for foreign tourists and local visitors, such as weather forecasts, civil emergency contacts, police, ambulance, firefighters, embassy or consulate contacts, currency exchange, e-transport services, and points and contacts for tourist information offices.

These new developments within the TEA application aim to support events and improve the tourist experience for both foreign tourists and local visitors at any destination in Albania.

# EXPLORE ALBANIA'S TRADITION AND CULTURE

*in a Single App*

The TEA application - the National Calendar of Tourism, Tradition, Culture, Arts, and Sports Events - which was

from archaeological sites to squares, TEA App now also provides information on every service unit near the event's location, such as hotels, restaurants, bars, agritourism, tourist attractions, archaeological sites, tour operators, ATMs, spas, health centers, hospitals, pharmacies, and dental services. With its new features and interface, TEA App is accessible not only through mobile phones but also via the official NTA (National Tourism Agency) website, [albania.al](http://albania.al), making it a true digital tourist guide.

downloaded by thousands of users just a short time after its first launch on June 2023, has now expanded its scope and transformed into a digital guide to Tourist Albania.

The updated TEA digital guide now offers a range of new services near the event location, making it easier for any tourist or visitor to discover Albania's tourist destinations.

With events spread from the Coast to the Alps, from city centers to villages, and
